

Safety Products

# SAFETY GATE

## Key Features

- ASTM A500 Structural Steel Tubing
- Energy Dissipating Flex Hinge Design
- Gas Spring Balanced Gate Arms
- Self-Engaging Latch Mechanism
- Safety-Yellow Powder Coat Finish

## Major Benefits

- **Reliable Performance:**  
Heavy-duty construction and exceptional load stopping capability can withstand various forms of accidental impact.
- **Proven Safety:**  
Manually operated barrier delivers seamless dock door protection, door track protection, as well as pedestrian protection.
- **Simple Functionality:**  
Self-engaging latch mechanism ensures safe and reliable open-close operation with very little effort required.
