

Safety Products

HANDRAILS

Key Features

- 4-Inch Diameter Modular Double Railings
- Electrocoat and Powder Coat Cast Iron Coating
- Hot Dipped Galvanized and Polyester Pipe Coating
- Set and Anchor Screws
- Slow Stop Rebounding Technology

Major Benefits

- **Reliable Performance:**
Modular double rails deliver reliable impact and collision damage protection against common forklift and vehicle traffic.
- **Custom Safety:**
Units are standardized to OSHA height requirements and can be mixed and matched according to varying section lengths.
- **Advanced Durability:**
Patented rebounding technology prevents rail denting as well as concrete damage from post impacts.
